

KUMBH F1

KUMBH is a highly vigorous hybrid that produces strong vines with large dark green leaves. This hybrid is a prolific bearer and produces abundant yields of straight cylindrical attractive green fruits that have prominent ridges. Fruit length is 60- 65 cms and width is 4.5 5 cms. KUMBH starts harvesting from 45 – 50 days after seeding and average fruit weigh 250 – 300 grams. Fruits are tasty and bitter free.
