

SIKANDAR F1

- ❑ Early hybrid with good vigor
- ❑ 3.5 to 4 kilo oblong fruits which are black in color
- ❑ Very sweet (13 to 14 Brix) deep red crisp flesh
- ❑ Fruits suitable for long distance shipping

IndoSem

SIKANDAR F1

Plants of SIKANDAR are very vigorous and produce early harvests of 3 to 4 fruits that weigh 3.5 to 4.0 kilos. Black colored attractive fruits are oblong with good gloss. Deep red flesh is extremely sweet (12 to 14 brix) and crisp. SIKANDAR with its oblong shape and strong rind allows long distance shipping.

CULTIVATION TIPS

- For best results, plant in well drained fertile soils
- Plant on raised beds with mulch
- Do not spray pesticides during flowering and fruit set stage to allow bee activity that will facilitate good fruit set.

Description of the product mentioned in this leaf let is as found in our research trials. This information is to be used as indicative only and users/clients are encouraged to trial the product in their own agro-climatic conditions prior to purchase.
